Updated based on Austin's responses to our round-2 extraction suggestions (now attached below)  
This week, let's talk about:

- Human study visualization update: <https://hawcproject.org/summary/data-pivot/assessment/475/testing-or/>
- ICF implemented changes involving footnotes, and created a draft of a figure sorted by publication date.
- EPA will let ICF know if it would be helpful to visualize these data in any other ways.
- Animal-primary study extraction
- ICF sent round 2 of extraction suggestions to EPA – EPA's responses in the attached:

## Ex. 5 Deliberative Process (DP)

- Path forward: ICF will continue pulling extraction info for the remainder animal studies, and send to EPA on a rolling basis for review, and continue to move forward with studies approved for extraction
- ROB check-in

## Ex. 5 Deliberative Process (DP)

Thanks!!  
Courtney
